IBM Full Stack Software Developer Professional Certificate (V5)

Issued by: Coursera

Authorized by: IBM

Issued to: Jelvan Ricolcol

Issued on: 21 May 2026

Description: This credential earner has the technical skills to become a full stack cloud native application developer: building, deploying, testing, and managing cloud native apps. They have language skills including HTML, CSS, JavaScript, Node.js, React, and Python. They have demonstrated proficiency with container technologies and databases, and understand GitHub and concepts such as CI/CD, security, microservices, and serverless computing. They can develop solutions using Gen AI-powered tools and models.

FIBAA

Total Credits: 6 Grade: Pass

Credit Recommendation:

- 6 semester hours

American Council on Education

Course Number: IBM-0020 (v.2) Total Credits: 18 Grade: Pass

Credit Recommendation:

- 3 semester hours in Web Development with HTML, CSS, and JavaScript in the lower-division undergraduate category
- 3 semester hours in Python Programming for Data Science in the lower-division undergraduate category
- 3 semester hours in Cloud Applications in the upper-division undergraduate category
- 3 semester hours in Introduction to Cloud Computing in the lower-division undergraduate category
- 3 semester hours in Introduction to Databases in the lower-division undergraduate category
- 3 semester hours in Application Development Using Microservices in the upper-division undergraduate category

Full Stack Software Developer Assessment V2

Issued by: Coursera

Authorized by: IBM

Issued to: Jelvan Ricolcol

Issued on: 14 May 2026

Description: This credential earner has demonstrated advanced knowledge of Full Stack Application Development. The individual has shown proficiency in key Full Stack Developer concepts and capabilities. The earner has also successfully completed an exam that tests their knowledge of cloud native applications and services, HTML, CSS, JavaScript, Django, React, JSON, IBM Code Engine, MongoDB, Node.js, Python, Docker, and Kubernetes.

Full Stack Application Development Capstone Project V2

Issued by: [Coursera](#)

Authorized by: [IBM](#)

Issued to: Jelvan Ricolcol

Issued on: 21 May 2026

Description: This credential earner has applied and demonstrated the knowledge of Full Stack Application Development. In this capstone project for the IBM Full Stack Developer Professional Certificate, the badge earner designed a dynamic user experience using REACT, Python, Django, MongoDB, Node.js, Docker and Kubernetes to build, test, and deploy a micro-services based application. They also used GitHub and GitHub Actions for code maintenance and version management.

YOUR PARTNER FOR EXCELLENCE
IN HIGHER EDUCATION **FIBAA**

FIBAA TRANSCRIPT LEGEND

This transcript contains credentials certified by FIBAA – Foundation for International Business Administration Accreditation. The following policies apply only to FIBAA certified credentials within the transcript. FIBAA certifications support the recognition of prior learning by validating formal learning experiences gained outside European Higher Education Institutions against academic standards in the European Higher Education Area (EHEA), thus supporting learners to apply for and gain recognition of ECTS (European Credit Transfer System) credits when entering an academic programme in Europe.

[FIBAA \(Foundation for International Business Administration Accreditation\)](#) is a European quality assurance agency for higher education and continuing education programmes. Founded in 1994, FIBAA is registered as an accreditation agency in Germany, Austria, Switzerland and further countries in Europe and abroad. In Europe, FIBAA is a member of ENQA (European Association for Quality Assurance in Higher Education) and of CEENQA (Central and Eastern European Network of Quality Assurance) and registered with EQAR (European Quality Assurance Register for Higher Education). On a trans-European level, FIBAA is member of INQAAHE (International Network for Quality Assurance Agencies in Higher Education) and AQAN (ASEAN Quality Assurance Network).

Each FIBAA certification is conducted by a team of experienced university faculty, an expert from professional practice and a qualified student. The panel team assesses the content, scope, and rigor of an organization's educational programme against the standards of the ESG (European Standards and Guidelines), the ECTS Users' Guide and the EQF (European Qualification Framework). The panel team makes appropriate recommendations for comparable ECTS credits and competencies achieved by students. For more information on processes and standards for FIBAA reviews, visit [FIBAA: Certification Procedures](#).

DEFINITIONS

FIBAA Endorsement: Credentials that carry a FIBAA endorsement of recommended ECTS credits are designated by the FIBAA logo in the left margin.

Name: Legal name as entered by the student at the time of transcript request. Because students may complete courses from multiple organizations, each credential also includes the name under which the credential was issued for tracking and verification if necessary.

Issued on: The date when the student completed the associated credential.

Credit Recommendations: Recommendations for credits are designated in ECTS. Each recommendation includes a total number of ECTS credits recommended and an EQF level assignment. Levels for which recommendations are issued include EQF levels 5 (mapping short cycle QF-EHEA), 6 (mapping first cycle QF-EHEA), 7 (mapping second cycle QF-EHEA) and 8 (mapping third cycle QF-EHEA).

Grade: FIBAA-endorsed credentials are only included on this official transcript if the student achieved a passing grade. FIBAA certification includes a validation of the assessments to be conducted by the learners, ensuring the assessments' appropriateness to reach the learning objectives on the assigned EQF level.

Intended EQF-Level: FIBAA certification includes a validation of the intended EQF level of the course to ensure learning objectives on EQF levels 5-8 (mapping the QF-EHEA levels short cycle, first cycle, second cycle, and third cycle, respectively).

RESOURCES

Additional information on FIBAA-endorsed educational programs, such as learning outcomes, assessment methods, etc. can be found at [FIBAA: Certification Procedures](#).

Inquiries: Please address inquiries to FIBAA – Foundation for Internationale Bsinsees Administration Accreditation, Berliner Freiheit 20-24, D-53111 Bonn, Email: info@fibaa.org, Phone: +49(0)228-2803560

ACE TRANSCRIPT LEGEND

The ACE Transcript is an official transcript that contains credentials evaluated by the American Council on Education (ACE). The following policies apply only to ACE-endorsed credentials within the transcript. ACE Learning Evaluations connects workplace learning with colleges and universities by assessing the quality and equivalency of nontraditional experiences. ACE's recommendations are intended to guide institutional decisions about the award of credit for prior learning.

ACE Learning Evaluations reviews are conducted by experienced college and university faculty who assess the content, scope, and rigor of an organization's educational program and make appropriate recommendations for comparable college credit and competencies achieved by learners. For more information on processes and standards for ACE reviews, visit <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/Colleges-Universities.aspx>.

DEFINITIONS

Issued On: The date when the learner completed the associated credential.

Issued For: The learner's legal name as entered by the learner at the time of transcript request.

American Council on Education Endorsement: Credentials that carry an ACE endorsement of recommended college credits or validated competencies published on the ACE National Guide.

Course Number (ACE ID): ACE assigns a unique identifier to ACE-endorsed credentials (e.g., ACE-0001 (v.1)). The letter prefix designates the organization providing the experience. Version number is based on the date that the credential was earned.

Credit Recommendations: Contain academic subject area(s) recommended for credit aligning to a college course. Credit recommendations are designated in semester hour units (SH). Levels at which recommendations are issued include vocational/certificate, lower division (100–200 level courses), upper division (300–400 level courses), and graduate (500+ level courses).

Competencies: These competency statements are from recognized, industry-approved frameworks, and have been validated by the faculty team as outcomes demonstrated by learners who successfully complete the evaluated learning experience. They represent workplace-relevant skills, knowledge, and abilities expected of professionals in corresponding industries.

Grade: ACE-endorsed credentials are only included on this official transcript if the student achieved a passing grade. ACE-endorsed courses and exams meet the following minimum grading requirements: Students must earn a minimum grade of C for vocational/certificate, lower division, and upper division credit and a minimum grade of B for graduate-level credit. The credential provider might also supply the learner's actual grade under Evidence in the Learner's badge. Click on the Credential Title to access the badge issued to the learner.

RESOURCES

Additional information on ACE-endorsed educational programs, such as learning outcomes, assessment methods, etc., can be found in the ACE National Guide at <https://www.acenet.edu/national-guide/>. Military training and occupations that carry college credit recommendations can be found in the ACE Military Guide at <https://www.acenet.edu/Programs-Services/Pages/Credit-Transcripts/military-guide-online.aspx>.
